Introduction

Solidarity, Humility y Commitment

The Yago Foundation is a non-profit organisation which was founded in 2011 from the enthusiasm and commitment of the entire Yago School team to help and to spread the spirit of solidarity.

MISSION

The Foundation's assets are permanently earmarked for the achievement of the following general aims, which are detailed below:

- To promote the concept of **solidarity** among parents, students, families, teachers, institutions, suppliers and any group directly or indirectly related to the school and the Foundation.
- To try, from the **humility** of its actions, to contribute to the necessary change of mentality in society in order to promote a culture of help and support among its members.

VISION

- Channelling aid to other foundations with links of any kind to Yago School or with Yago School itself.
- To **guarantee** that students whose parent, the principal income source, passes on, that they can complete their studies at Yago School.
- Carrying out activities for **International Development Cooperation**.

VALUES

All of its activities are aimed at the same goal, **Solidarity**.

With this spirit we intend to transmit, especially to the students of Yago School and to society in general, the importance of solidarity, of thinking of others and of stopping from time to time and looking around us to see the needs of those around us.

Sometimes it will be just a smile, a gesture, a hug, any of these that are within our reach in order to make someone happy. That is the essence of The Yago Foundation, bringing us all together to make the world a better place.

foundation

EVENTS Y ACTIVITIES

FUN FAIR 2023

APU RACE

The **APU Solidarity Race**, which is organised every year in the school and in which students and teachers participate, has been a complete success and from here we can only thank everyone for their involvement and enthusiasm before and during this event, congratulations to all the runners for their effort and to the Pablo Ugarte Association for letting us contribute our grain of sand in this great cause such as supporting research into **childhood cancer**.

INTERNATIONAL DAY

*the
yago
foundation*

In Yago we worked in class on the **international character** of our school, promoting the knowledge of the different nationalities and cultures that coexist in our daily life.

Each class represented the culture of a country of the world...

Our **diversity** is our strength!

UKRAINIAN FAMILIES

Last year we started a project to help Ukrainian families fleeing the war, and we assisted 5 mothers and their children. We were able to get temporary homes as well as furniture to furnish the flats and make them feel at home. This year we continue with this project and we have 9 Ukrainian children in school.

UNICEF CONCERT

Yago School is part of the UNICEF Friends Schools network. In our school we share the mission of guaranteeing children's rights and promoting the Sustainable Development Goals. This helps us to look at new dimensions of children's well-being, associated with equity, economic development, environmental protection and the promotion of peace, among others. For this reason, we are committed to disseminating, collaborating and supporting UNICEF's programmes for children's rights and sustainable development.

On the other hand, a group of CAS students from the school organised a solidarity concert in the Sports Hall. The proceeds will go to UNICEF. We had the participation of our Choir, the Yago Band and the Music Club.

FOOD BANK

Being a volunteer at the **Food Bank** is a way of being, where you give your enthusiasm, effort, personal experience, time and commitment to contribute to improving the living conditions of the most vulnerable people.

Several groups of DP1 and DP2 went out to supermarkets to collect food. They explained to the people who entered the supermarket what the campaign consisted of and gave them a bag in which to place the food they were donating.

ANASTASIIA

The Foundation decided to provide humanitarian aid to a Russian doctor, Anastasiia, who was able to escape from the front to which she was called.

During all these months, the Foundation provided her with accommodation, furniture, food, and covered all the expenses involved in the day-to-day life of any person. We also helped her with the legal procedures to be able to apply for political asylum.

Anastasiia wanted to collaborate with the school to reciprocate and was giving support to the Ukrainian students and families. Always with a smile and willing to help.

Incredible work and strength, struggling every day with the paperwork. Luckily, this summer, she was finally reunited with her family in the USA.

PROYECTO HOMBRE

As you all know PROYECTO HOMBRE is a non-profit foundation whose main aims are "the comprehensive care of drug addicts and, in general, the study, prevention and eradication of addictions and related problems of a personal, family, health and social nature, Promoting programmes aimed at the care and social inclusion of groups of people with addiction problems, HIV/AIDS, immigrants, prisoners and ex-prisoners, women, young people, minors and ethnic minorities in social difficulty, encouraging in our actions the participation of social volunteers and equal opportunities between men and women. Promoting and carrying out training activities aimed at the socio-labour integration of the beneficiary groups and the training of educators, mediators and other social agents. All of this in the province of Seville".

This agreement signed between the two foundations consists of the commitment made by The Yago Foundation to subscribe to a SCHOLARSHIP for one year to cover the costs of rehabilitation and reintegration into the labour market of a PERSON in the Youth Programme of Proyecto Hombre Seville, aimed at adolescents at risk of social exclusion due to their addictions. In its desire to contribute to the education of our youth and to collaborate with as many solidarity actions as possible, The Yago Foundation has wanted to contribute its grain of sand to this commendable work that PROYECTO HOMBRE carries out in our society.

EXPRESS VOLUNTEERING

The aim of Express Volunteering is threefold: To provide timely help with an immediate impact by sheltering homeless people in different cities in Spain. Raise money in a single day (9 hours), buy shelter material in the afternoon and distribute it that same night. As they do every year, our students take to the streets of Seville for a whole night to give shelter to the homeless so that they can take refuge from the cold.

OLIVE OIL COLLECTION

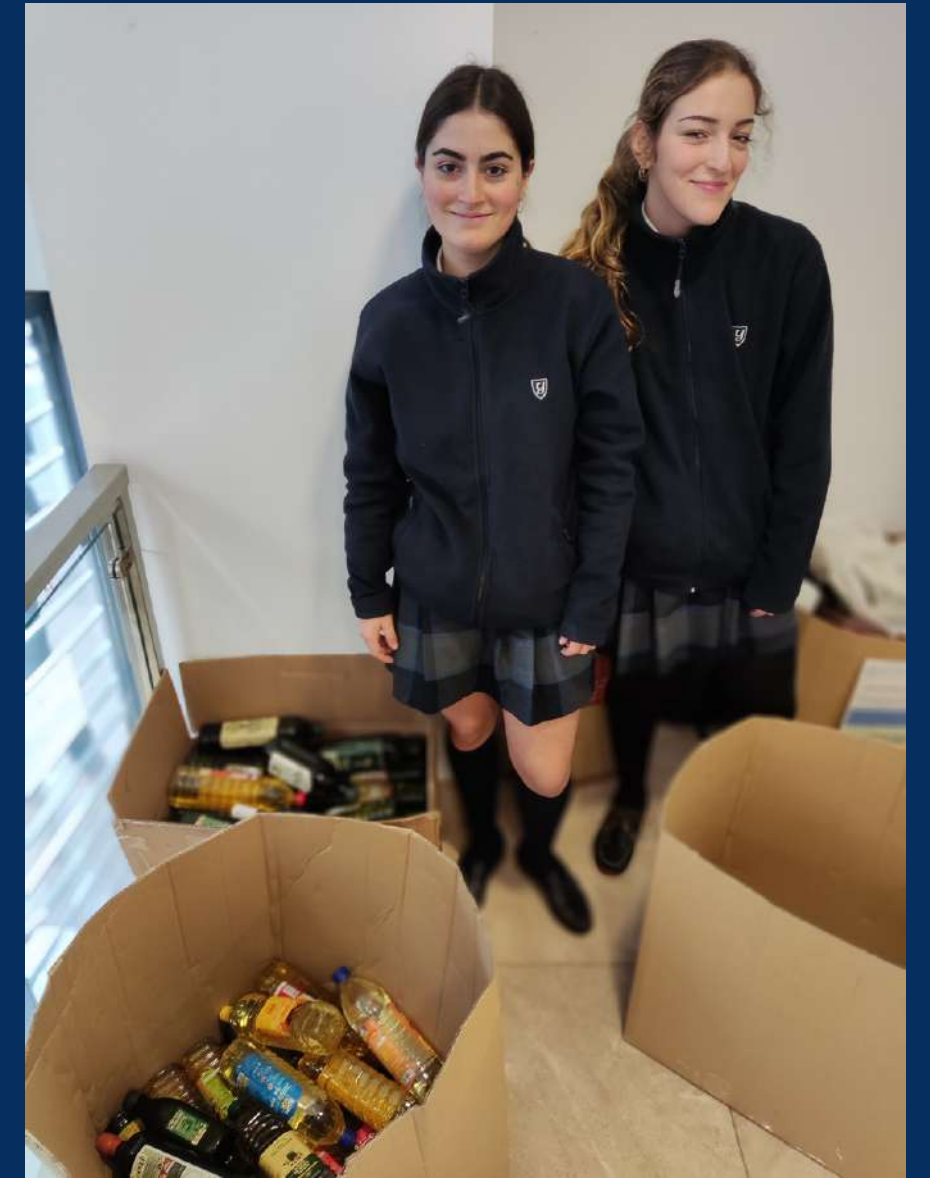

the
yago
foundation

Every year we collaborate with Cáritas Parroquial and we try to cover their needs, last December they needed oil due to its price increase.

During the month of December, 462 litres of oil were collected for the benefit of the Parish Ntra. Sra. de la Oliva in Seville.

On behalf of Yago Foundation we would like to thank the students Marina Rojas and Inés Gordillo for their CAS project and all of you who collaborated with the cause.

SOLIDARITY BOOK FAIR

the
yago
foundation

The Yago Foundation closed the Book Week with the Solidarity Book Fair, a perfect finishing touch to a whole week of emotions, learning, reading and reinforcement of values.

With these actions we seek to encourage the promotion of reading and the proper development of our students, with the active participation of students, parents and teachers, who are essential and whose contributions help the Foundation's charitable projects to move forward.

The Foundation is born with the illusion and commitment to help those who need it, mainly the large group that already exists around the school, but we do not want to limit its scope of action. Both the work of Father Jota in Peru, the aid to the Ukrainian families as well as all the solidarity actions we do now and those we will do in the future, will also be channelled through it.
